

INDUSTRIAL RANGE

FAL IR20S

Normative:	EN-ISO 20345:2011 S1+SRC+CI+P
Reference:	257231
Sizes:	35 a 48 EU
Height:	6 cm internally ($\pm 5\%$) [Size 42]
Weight:	1.14 Kg/pair (APROX) [Size 42]

TECHNICAL INFORMATION

DESCRIPTION

Leather shoe. Non-metallic Vincap toecap. Textile anti-puncture insole. Two density polyurethane with SRC anti-slip level.

Upper: Split Leather.

Lining: Breathable and abrasion resistant polyester fabric.

Removable Insole: Anatomically preformed and abrasion resistant.

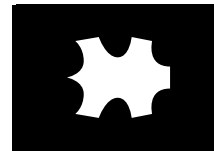

Sole: Double density polyurethane with anti-slip design.

Protection toecap: Composite (Light, non-magnetic, thermally isolated, recovers form after normative impact).

Protective Insole: Non-metallic penetration resistant insole (High Tenacity Polyester).

Closing system: Laces.
